

ACTIVITY 3: COMMUNITY STRATEGIES FOR HEALTH AND HUMAN DEVELOPMENT

Create a presentation that promotes Children's Ground as an example of a community strategy that promotes health and human development.

The presentation can be a Powerpoint or Prezi, a verbal report or cartoon/ animated presentation.

The presentation should include the following information about Children's Ground:

- An overview of Children's Ground (who, what, when, why, how).
- The determinants of health (biological, social, behavioural and physical environment) that act as protective factors for the indigenous population by being involved in this program.
- Outline the health issues that will be addressed by being apart of this program.
