EXTENSION ACTIVITY:

a) Research the prices of your essential items and guesstimate how long each one lasts.

b) Then divide the cost by the days of use to get a daily cost.

c) Add the daily cost up.

d) Does this daily personal hygiene cost exceed the basic poverty line of US $1.25/day?

e) If the daily cost is more than US$1.25/day, how might this impact on your personal health status?
