

# JUST \$1 FROM EVERYONE

## IMAGINE THE POTENTIAL

**STEP 1:** Decide on a fundraising target and write it at the top of the bucket.

**STEP 2:** Divide your fundraising target by six, and write in the amount needed to be able to colour in each section of the bucket. For example, if your target is \$60, for every \$10 raised you could colour in another section of the bucket.

**STEP 3:** Colour in the bucket as the funds come in!

YOUR FUND TARGET:

\$ \_\_\_\_\_

\$ \_\_\_\_\_

\$ \_\_\_\_\_

\$ \_\_\_\_\_

\$ \_\_\_\_\_

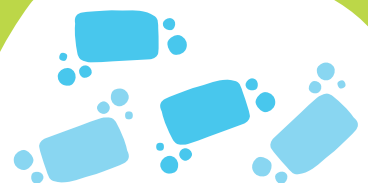

\$ \_\_\_\_\_

**IF 50 OF YOU EACH DONATED JUST \$1,** a remote village in the Solomon Islands could build a raintank so they **ALWAYS HAVE CLEAN WATER.**

**IF EVERYONE IN YOUR CLASS DONATED JUST \$4** – together you could help give **CLEAN WATER TO AN ENTIRE SCHOOL IN SOUTH AFRICA.**

**IT ONLY TAKES \$7** to give a Syrian refugee in Jordan four bars of soap to help keep their hands clean and **STOP THE SPREAD OF GERMS.**
