

In a wealthy country like ours, it's completely unacceptable that Aboriginal children die at twice the rate of other Australian children, and Aboriginal people live at least 10 years less than other Australians. Despite a decade of Government promises the Aboriginal health gap in Australia is NOT CLOSING.

The Government's business as usual approach to Indigenous health has not worked. We call on Government to take urgent action to:

- ► Fully cost and fund the National Aboriginal and Torres Strait Islander Health Plan
- ▶ Build the capacity and provide increased long term funding to extend the reach of Aboriginal Medical Services (AMS) to meet the demand that exists
- ► Ensure that health solutions are culturally appropriate and community focused and controlled
